

Türkiye's First and Sole Trade Fair Dedicated to the Plastic Recycling Fair: RePlast Eurasia

RePlast Eurasia, Türkiye's first and sole trade fair dedicated to the plastic recycling fair will open its doors for the second time in Istanbul at Tüyap Fair and Congress Center on May 8-10, 2025, as organized by Tüyap in cooperation with PAGÇEV. Last year, the fair attracted international participation and great interest, while this year's fair aims at further strengthening environmental awareness by means of new technologies and sustainable solutions in the industry. Offering a unique opportunity for those are interested in discovering the innovations and green technologies in the recycling industry, the fair will continue shaping the future of the industry.

RePlast Eurasia Continues Growing with Global Participation and Innovative Solutions

RePlast Eurasia Fair that was organized for the first time last year achieved a great success by hosting 124 exhibitors from 10 countries and 8,253 visitors from 85 countries. Exhibitors from countries like Germany, China, the Netherlands, England, Spain, Italy and Malaysia exhibited the latest technologies in the field of plastic recycling, thus getting the chance to establish international cooperation. RePlast Eurasia Fair will continue to grow exponentially in 2025 by hosting over 200 exhibitors from all around the world, in particular Italy, Germany, Spain, Belgium, Poland, China, and Malaysia. Leading companies of the industry, including the recycling machinery manufacturers, companies engaged in the collection and sorting processes, manufacturers of recycling raw materials, and yarn and fiber recycling machinery manufacturers, which are included in the fair this year, will showcase their products and services.

More Than Just a Fair: Prospective Ideas and Innovative Solutions at the 2nd Plastic Recycling Conference!

The conferences that will be held with the participation of high-level industry professionals during the RePlast Eurasia Fair, the information sharing platform of the industry, facilitate acquiring in-depth information about the plastic recycling industry. The present of the plastic recycling industry will take place within the framework of a wide range of topics, including technological developments expected in the future of the industry, legal practices, sustainability, and the circular economy.

PAGÇEV Plastic Recycling Awards: Rewarding the Best Projects

RePlast Eurasia Fair will also host the Plastic Recycling Awards for the 2nd time. The fair will continue promoting the innovations in this field through this event that rewards the most creative and sustainable projects of the industry. The Plastic Recycling Awards will take place on May 8th, the first

day of the fair, with awards presented in 7 different categories. Plastic Recycling Awards will be a platform where not only producers of raw materials and technologies in the field of plastic recycling, but also products made of recycled raw materials will be rewarded. The awards will continue to provide an insight into current developments in the use of recycled materials, product design and manufacturing, in addition inspiring large masses.
